ACQ Lumber

Starting Jan. 1st, 2004 traditional CCA Treated Lumber will be replaced by the new safer, environmentally friendly ACQ.

In order to meet this New industry standard Paslode is proud to offer the only cost effective, safe and approved fastening solution.

HOT DIPPED GALVANIZED

The Treated Wood Industry Specifies or Recommends Hot Dipped Galvanized or Stainless Steel Fasteners for use with New ACQ Pressure Treated Wood.

Fastener Corrosion is a concern in two regards:

1. Corrosion leading to failure of the application
2. Corrosion leading to discolouration.
